New York Stock Market

New York, June 1.—Measured by the rate of shrinkage of prices, the stock market offers a strong impression of the sinister purport given by the speculation to the action of the Federal government against the advance in railroad freight rates. The fall in prices to-day, added to yesterday's declines, had carried St. Paul and Reading down 9 5-8 before effective resistance was encountered. Many other active stocks showed losses for the two days' movement of between other active stocks showed losses for the two days movement of between 5 and 8 points. The result was the abrupt establishment of prices at the lowest level of the year for all the principal railroads. The showing was less striking in the case of the industrials, but the weakness in that group was sufficiently acute to leave no room for a presumption of their exemption from the influence common to the whole speculation.

Much must be allowed to the element of unexpectedness in the government action to explain adequately the abrupt effect produced. Opposition to the proposed advance in freight rates, possibly extending to legal process,

abrupt effect produced. Opposition to the proposed advance in freight rates, possibly extending to legal process, was looked for, and the railroads have been pursuing a course to meet this opposition and public agitation on the subject. There has not been lacking a broad instnuation that the liberal expansion in expenditures which has caused the large increase in operating cost of the railroads in recent months has been allowed with a view to its effect on public sentiment. In favor of the contention of the railroads for higher compensation.

The tone of public discussion by railroad officials has shown a recognition of the necessity of justifying the higher charges which were to be asked by offering evidence of their reasonableness. The appeal to the prin-

ed by offering evidence of their rea-sonableness. The appeal to the prin-cipal of unlawful concert and agree-ment in the making of the schedules contained in the government suit is what proved the greatest shock to speculative sensibilities. The advo-cacy in party platforms and in official utterances of amendment of the law to permit agreement on rates seem-ed to be taken as assurance of to be taken as assurance ed to be taken as assurance of exemption from prosecution on the score of identical charges by the dir-ferent roads. The prospect of be-ing held responsible for restraint of trade on the mere score of this ident

ONE MILLION DOLLARS PROVIDE FOR THE WISE ADMINISTRATION OF YOUR ESTATE

Most men carry life insurance as a protection to their families against their sudden demise. Yet for the investment of this insurance money that their heirs may derive benefit from it in the form of a steady income, they make no provision, with the result that the entire principal is often lost through unwise investment. By naming this Company as Trustee for the beneficiary of your insurance, you assure that person an income for life.
